## Fall Enrollment Report

Coordinating Board for Higher Education  
December 7, 2022

### BACKGROUND

The intent of this item is to present information regarding enrollment trends at Missouri's public and comprehensive independent colleges and universities.

Enrollment is presented as full-time equivalent (FTE) enrollment and enrollment based on headcount. Full-time equivalent enrollment is generally based on 15 credit hours for undergraduate students, 12 credit hours for graduate students, and varies by institution and program for professional students. Headcount enrollment counts the total unduplicated number of students enrolled at each institution at fall census date.

### CURRENT STATUS

The Missouri Department of Higher Education and Workforce Development publishes an annual data collection calendar and informs institutions of the reporting deadlines in the summer of each year. Data for Fall 2022 enrollment was due to the agency through the EMSAS reporting system on October 14, 2022. Data collection and validation were delayed, however, by other pressing demands on MDHEWD staff as well as staff and technical challenges, and differing enrollment census dates among institutions. Several institutions required reporting deadline extensions. MDHEWD granted these extensions in an effort to recognize their unique circumstances.

To have a comprehensive view of aggregate public and independent institution enrollment in Missouri, all institution data needs to be reported at the same time. As a result, the enrollment tables do not appear in this board item, but will be presented during the public meeting of the Coordinating Board for Higher Education on December 7, 2022. Reports will be sent to the Coordinating Board members via email and posted on the MDHEWD website.

### CONCLUSION

The Fall 2022 Enrollment report will be presented at the December 7, 2022 Coordinating Board for Higher Education meeting.
